## **DETAILED ACTION**

### ***Request for Continued Examination***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 22, 2004 has been entered.

2. The previous rejection of claims 24-35 and 37-39; and claims 41-56 is withdrawn. In the former, Applicants have shown the formerly applied references fail to teach or suggest a composition for chemical mechanical planarization of a copper surface does not comprise as recited, or a material as recited, and does not have a pH in a range as recited hydroxylamine along with the other limitations of 24-28 and 37-39 (Remarks, pages 12-18). In the latter, Applicants have shown these claims were previously indicated as being allowable (Remarks, page 10).

**REASON FOR ALLOWANCE**

3. Claims 24-35, 37-39, and 41-70 are allowed.

4. The following is an examiner's statement of reasons for allowance:

As to claims 24-35 and 37-39 and 57-70, the prior art of record fails to suggest, teach or render obvious a chemical mechanical planarization composition, which comprises: hydroxylamine and a material selected from the group consisting of hydroxylamine nitrate, hydroxylamine sulfate, and ammonium salt, and any combination thereof, the ammonium salt selected from the group consisting of a nitrate salt, a sulfate salt, a phosphate salt, a chloride salt, and any combination thereof, along with the rest of the limitations of the said claims; and

As to claims 41-56, the prior art of record fails to suggest, teach or render obvious a chemical mechanical planarization composition, comprising 4-hydrazine benzoic acid, in combination with the rest of the limitations of the said claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynette T. Umez-Eronini whose telephone
